Objective:

MCA graduate with knowledge of Python, Java, SQL, and web technologies. Familiar with building simple applications, problem-solving, and working with databases.

EDUCATION:

Masters of Computer Applications (MCA)

Vidya Vikas Institute of Engineering and Technology, Mysore. CGPA: 8.3 (2023-2025)

Bachelors of science: B.G.S First Grade College, Mysore. (2020-2023)

Skills:

- **Programming Languages:** Python, Java,
- **Web Technologies:** HTML, CSS, JavaScript, Bootstrap, Responsive Web Design.
- **Database**: SQL, MySQL.
- **Tools & Platforms:** GitHub, Power BI, MS Office Applications, VS Code.
- **Core Concepts:** Object-oriented Programming OOPs, DBMS, REST APIs, SDLC.
- **Libraries & Tools:** NumPy, Pandas, Matplotlib.

Experience:

Machine Learning Intern – Dream Buzz Solution. Link (Dec 2024 – Jan 2025)

- Developed and optimized Python-based modules for data processing, automation, and backend logic implementation.
- Cleaned, transformed, and normalized large datasets using Python and Pandas for analytics and machine learning pipelines.
- Debugged and tested application code, ensuring reliable output through proper error handling and validations. Collaborated with the engineering team to enhance application performance and streamline workflows.

Projects Completed:

"Car Crash Detection and Reporting System Using Deep Learning"

Technologies: Python, Flask, OpenCV, SMTP.

- Built a Python and Flask–based backend system to process real-time video input and trigger automated alert workflows.
- Developed modular components for event detection, notification handling, and email automation using SMTP
- Integrated OpenCV processing with Flask endpoints to ensure smooth, efficient application functionality.

"One Stop Platform for Karnataka Schemes"

Technologies: HTML, CSS, SQL.

- Developed a responsive bilingual web platform using MySQL and Apache to provide Karnataka government schemes for farmers and women in English and Kannada.
- Implemented admin dashboard, user authentication, and dynamic scheme updates for efficient data management and accessibility.

Research & Publication

"Car Crash Detection and Reporting System Using Deep Learning" Link

Manoj B M | Published: Nov 2025

- Published research paper on a deep learning–based system for detecting car crash events using Python and OpenCV.

Certifications:

- **NPTL** - Data science for Engineers. Link
- **NVIDIA** - Fundamentals of Deep Learning. Link
- **IBM-** Introduction to Artificial Intelligence,
- **IBM-** website Testing and Deployment.

Languages Known:

- English.
- Kannada.
- Hindi.

Methodologies & Soft Skills

- Agile / Scrum methodologies.
- Strong analytical and problem-solving skills.
- Effective communication and documentation skills.
- Team player with collaborative mindset.
- Adaptable and quick learner in fast-changing environments.
